

“Grow Tomatoes Easily - Organic and Non-Organic”¹⁻³⁻²⁰¹⁹

From: Dave Freed / The Tomato Guy / Email: Dave2040@gmail.com [Learn how to grow tomatoes easily.....visit my internet site/schedule a lecture/presentation...learn to grow tomatoes easily](#)

My Website/Blog: click on & bookmark for later <http://growtomatoeseasily.blogspot.com/>

Speaker: Dave Freed Bio/Profile.....[to find Davesimply Google](#) Dave Freed the tomato guy

Unlike speakers that pass on what they have studied and researched, I first take what I have read, studied and researched and try it out to see if it works. Some things work, some things don't. When I say grow tomatoes easily that means easily grow tomatoes-- hybrids and heirlooms...as well as easily grow other garden vegetables... I mean it...And if you have never grown a garden or maybe don't have a “Green Thumb”—I will give you that “Green Thumb”. [I have a projector & excellent slide show & presentation. I will show you how to “Grow Tomatoes Easily” as well as other garden vegetables.](#) I'll show you what works for me and if it works for me, it should work for you because I'll show you how I do it..... I'll give you that “Green Thumb”. “The Grow Network” nominated and chose Dave as America's “Top Tomato Expert”

[Pictured are 3 plants total. Each plant has over 100# of beefsteak size tomatoes.](#)

Easily produce 50# to more than 100# of fresh tomatoes from a single tomato plant. I'll show you how. SelfWatering Containers—a foolproof way to grow great tomatoes & most garden vegetables in containers. Grow hundreds of tomatoes on a single plant in a container.

How to choose which plants to grow -- Heirlooms, Hybrids, Beefsteaks, Cherry, Determinate, Indeterminate. Sunshine—How much sunshine is enough?

Soil—learn great organic and/or non-organic soils for containers & how to easily improve existing backyard & raised bed soil to easily grow & produce great tomatoes as well as other vegetables.

Should you plant seeds or live plants? How about those volunteer plants that come up on their own?

Learn basic watering- containers, backyard soil, raised beds. Mature plants easily uses 3 gallons water per day. What is the best time of year to plant tomatoes? What about winter tomatoes?

Temperatures—Does temperature impact tomato production? Yes.....learn how.

Mulching—What is mulching? Why is it important? Learn how/when to mulch & when not to mulch.

Pollination—Help pollinate tomato plants & substantially improve your tomato production.

Pruning—When to prune, Basic pruning and advanced pruning for maximum tomato production.

Fertilizers-Organic & regular...always use liquid fertilizer & why. How to make a Compost Tea / Manure Tea.

[To schedule a lecture/presentation on how to “grow tomatoes easily” as well as other garden vegetables Contact Dave at \[dave2040@gmail.com\]\(mailto:dave2040@gmail.com\) The lecture/Presentation including Q&A lasts approximately 1 hourwe can talk longer if you like. I love talking tomatoes.....I'll give you that “Green Thumb”....](#)

Thanks, Dave Freed “The Tomato Guy”
